AUDITOR’S RESPONSIBILITY

3. Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

(p) Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.
